

Native oaks are now available!

The native local oaks that Mendocino College Department of Agriculture has available at this time are:

Tan Oak - 11
Oracle oak - 48 (Black oak x Interior Live Oak)
Valley oak - 490
Black oak - 147
Int. Live oak - 294

We are open to the public when we are there, usually M-F 9:00am-4:30pm. The contact person is Kim Lyly and her phone number is 468-3148.

We always carry a number of other native and non-native species in our nursery. We are happy to grow specific plants or large number of plants for people with an agreement or on a "contract".
